Siya Health®

FOR EMPLOYERS

An integrated care experience for busy professionals

Annual physicals check the Body.

Who's checking the Brain?

One physician-led team for focus, stress, memory and sleep, plus your team's everyday primary care.

$0 to your employees[1]

OUR CARE MODEL

1

We listen to everything

Real people who hear every concern, physical and mental, without rushing you to one issue.

2

A complete evaluation

Unhurried clinical evaluation, cognitive assessments, and lab or diagnostic tests when needed, leading to an evidence-based plan.

3

We follow through

A care team that coordinates your care, keeps you on track, and flags and escalates anything that changes.

Private by design. Every employee's health records stay between them and their care team. Employers see only anonymised, group-level reports.

Your own clinician	On-call clinicians	30 min	2 hours
for everyday care	nights, weekends, holidays[2]	message replies	urgent needs seen by a licensed clinician[2]

2,700+
patients cared for

More than half
are working professionals
